

TANZANIA'S SECOND REHABILITATION SUMMIT 2024

HEALTH FORUM

A health forum at Rehab Summit is a platform, where an organization/institution can share information, present and discuss topics related to rehabilitation, disability, health and wellness. The forum can be general or focused on specific health conditions, treatments, or wellness practices, show casing best practices and innovative approaches.

FEATURES OF A HEALTH FORUM:

- **Expert Advice:** Access to health professionals who can provide credible information and answers. Enhance understanding and implementation of effective rehabilitation strategies.
- **Community Support:** A space for practitioners, health care providers and users to support each other through shared experiences and advice.
- **Scheduled session:** A space for rehabilitation and disability experts and community members to discuss specific topics.
- **Facilitation:** An opportunity for networking and collaboration among healthcare providers, practitioners, researchers, and industry leaders.

TARGET AUDIENCE

The Health Forum is designed for rehabilitation professionals, including therapists, clinicians, researchers, policymakers, community and anyone involved in rehabilitation and disability sector. Whether you are an experienced practitioner or new to the field, this event will offer valuable insights and connections.
