

REHABILITATION SUMMIT 2025

SUMMIT OVERVIEW

THEME

"Partnership and Collaboration
is Key in Strengthening
Rehabilitation Service Delivery"

Date: September 10th-12th, 2025

Venue: Julius Nyerere International Convention
Centre (JNICC), Dar es Salaam

Organized by: Rehab Health in collaboration with
the Ministry of Health, Tanzania and East, Central and
Southern Africa Health Community (ECSA-HC)

We look forward to welcoming you and your organization to the Rehabilitation Summit 2025, where your participation will help shape the future of rehabilitation and contribute to building a more inclusive, effective, and sustainable health system.

Building on the legacy of our previous summits, the 2025 edition is anticipated to be a vibrant forum where healthcare professionals, policymakers, researchers, community members, local and international delegates, academia, and industry

leaders come together to exchange ideas, share best practices, and cultivate enduring collaborations. The summit will spotlight transformative approaches and forward-thinking strategies that enhance rehabilitation services regionally and internationally.

Our agenda encompasses a diverse range of workshops, discussions, scientific presentations and exhibition to cater for the varied interests and expertise of our participants. Here is a glimpse of what delegates can expect:

JOIN THE CONVERSATION

Offering 1: **Discussion Sessions**

1. Sustainability of Rehabilitation Programs
2. Early Detection and Rehabilitation
3. Early Referral to Rehabilitation
4. Digital Rehabilitation
5. Financing Rehabilitation
6. Women Empowerment as Main Carers of Children with Disabilities
7. Inclusive Education and Rehabilitation
8. Rehabilitation Research
9. Expanding Rehabilitation Services
10. Universal Health Coverage (UHC) and Access to Rehabilitation
11. Rehabilitation and Medical Tourism

Sessions promoting physical activity, mental well-being, self-care for professionals, and practical exercise demonstrations.

Offering 5:

Exhibition

An interactive space for stakeholders, innovators, and companies to showcase rehabilitation products, and solutions.

OUR REACH

- Over 500 Participants
- Country wide coverage
- Global reach

OUR IMPACT

The Rehabilitation Summit continues to make meaningful strides in strengthening rehabilitation advocacy in Tanzania. Building on the milestones of the 2024 Summit — which brought together over 300 stakeholders, introduced the Tanzania Rehabilitation Alliance (TARA), expanded regional and international reach, and increased public awareness — the Summit also produced 12 practical resolutions that have guided improvements in policy development, training, service expansion, and

community engagement. These resolutions have laid a strong foundation for the 2025 Summit, which now aims to deepen partnerships between public and private sectors, expand the reach of rehabilitation advocacy through digital platforms and global expertise, stimulate innovative solutions through technology and research, strengthen capacity building for professionals, and drive policy change towards accessible, inclusive, and sustainable rehabilitation services for all.

THANK YOU

The Rehabilitation Summit 2025 is more than an event—it's a call to action. By bringing together diverse stakeholders and focusing on the critical theme of partnership and collaboration, we aim to drive transformative change in rehabilitation service delivery. We invite you to be a part of this journey and help shape the future of rehabilitation in Tanzania.
